

## WOMAN'S CLUB FLOWER SHOW

Sweet Pea Exhibit At Regular Club Hour Tuesday. Move May Presage Garden Club City Beautiful Object of Plan

Under the auspices of the Civic Education department of the woman's club an exhibition of sweet peas will be held on Tuesday, April 18. The exhibit will be in place at 2:15, the hour for the club program, at which time members and guests will be admitted as usual. At four o'clock the flower show will be open to the public, and it is hoped that all interested in sweet pea culture will visit the club house, conversing with the department and seeing women who have that this first exhibit may develop sufficient interest to warrant the establishment of a flower club on the lines of those in the east and therefore the entries will be open to all residents of Phoenix and vicinity. As this undertaking is more or less informal, no entry blanks will be issued and persons intending to exhibit are requested to notify Mrs. H. B. Clark, 2612 West Jefferson street, on that sufficient room may be provided.

Three prizes will be offered—a first and second for the best display of bouquet of sweet peas each bunch to contain about twenty-five stems, and no less bunches of the same variety. All bunches to be labeled with the name of the variety. Quality rather than quantity will count in the award. A special prize will be offered for the

most artistic table decoration, either a single center piece or a group.

A member of the committee will be at the woman's club Tuesday morning from 10 to 12 to receive the flowers and all entries in competition for prizes must be in the hands of the committee before noon.

Growers of sweet peas who do not care to enter flowers for the competition are asked to donate bunches of sweet peas for display purposes, these to be sold later for the benefit of the department. Flowers intended for display only may be delivered any time before the afternoon meeting convenes, but the work of the committee will be greatly simplified if most of the flowers are received in the morning.

In addition to the Sweet Pea Show there will be, in the department room on Tuesday afternoon, an exhibit of colored prints and photographs. This collection was made in Europe by Miss Inez Abbott and consists of reproductions of both old and modern masters, historic buildings and places. The pictures are produced by a new process and are of good size, an altogether very attractive and interesting.

This exhibition will also be open to the public after four o'clock, at which time Miss Abbott will give a short, informal explanation of the pictures.

### TOO LATE TO CLASSIFY

BARBAIN in a piano at 615 North Central avenue.

LARGE BOY to care for lawn and help around house, good home to right party. Call before noon, 229 E. Portland.

FOR SALE—One of the best little family grocery stores in Phoenix; must sell owing to illness. Address W. A. S. Republican.

Hire a little salesman at The Republican office. A want ad will see more customers than you can.

## STUDEBAKER PUTS IN BIG ADDITION

As a move of preparedness for the 1916 demand for Studebaker cars, additions costing \$1,000,000 have just been made to the Detroit factories of the Studebaker Corporation. The work on these extensions, begun last October, is now practically completed and will enable the manufacturers of Studebaker cars to carry out their plans of producing 100,000 cars during this year.

With the completion of the increased plant facilities, the production schedule will shortly be jumped from 300 cars a day to 400, thus placing the Studebaker Corporation as the largest builders of cars at or above the prices of the Studebaker Four and Sixes.

Included in the plant extensions is an entirely new building for the manufacture of heavy forgings, such as six-throw crank shafts and front axles. In the heat treating and carburizing departments, seven large double-chambered furnaces have been built to replace smaller types and increase production accordingly.

Seven forging machines for producing gear blanks are being added; the power plant is being increased by two 500 H. P. water tube boilers, and a 2,000 H. P. low pressure turbine generator is being installed to be operated by exhaust steam available from the large plant.

The plan adopted is what is known as the "plant unit system," the arrangement being such that each piece of raw material is not only completed but also sub-assembled in the same department before passing to the final assembly.

## THE PRIMARIES OF REPUBLICAN PARTY MONDAY

Why and where to vote in Monday's republican primaries in Maricopa county were explained at a meeting of the Republican club last night in Odd Fellows Hall—a meeting at which many women voters turned out. George Hershman, secretary of the county central committee, explained the method of dividing Phoenix into ten precincts, and gave the location of the voting places.

His explanation was preceded by a short address by Gen. A. J. Sampson and followed by addresses from R. E. Markes, Robert S. Fisher, Clinton S. Scott and Jack White, chairman of the county central committee.

The latter quartet told why the republicans should make a strong expression of their opinions at the coming primaries. Mr. Scott, making his first political speech, proved that in graduating from newspaper to magazine work, a man loses much of that self-consciousness from which the majority of the news columns shield him.

The precincts:

**Polling Places**  
1st Precinct—127 N. Central Ave., J. J. Adams.  
2nd Precinct—Second Ave. and Adams St., E. W. Lewis.  
3rd Precinct—Garage, 235 W. Washington, H. R. Dages.  
4th Precinct—City hall, J. H. Kirby.  
5th Precinct—High school auditorium, W. H. Meskey.  
6th Precinct—Madison school, Geo. Kirkland.  
7th Precinct—221 E. Wilhite, Geo. Hershman.  
8th Precinct—719 Grand Ave., J. F. White.  
9th Precinct—17th Ave. and Van Buren, C. E. Arnold.  
10th Precinct—567 S. 7th Ave., Frank Woods.

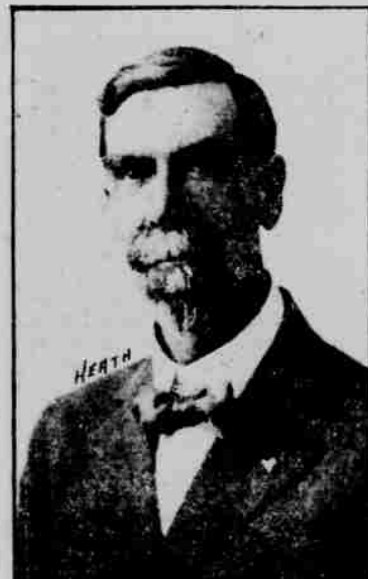

At tomorrow's election will be chosen delegates to the county convention next Saturday. The 194 delegates will then select 51 to go to Tucson May 8 for the state convention to name six delegates to the Chicago national convention on June 7.

## WOODMEN ENJOY BIG MEETING AT ARMORY

Valley Lodges Assemble in Phoenix and See Big Class Initiated and Some Fine Drills

One of the events which will doubtless be long remembered by the members of the valley lodges of the Woodmen of the World was the big meeting and joint initiation ceremonies which took place in the armory in this city last night. The gathering was one of the biggest of the kind ever held by the lodgesmen and representatives from the camps at Mesa, Glendale, Tempe, Chandler, Buckeye and Casa Grande were present to join the Phoenix members in the celebration.

Last night's festivities came as the climax of the strenuous membership campaign which has been waged by the lodges in the valley, and at this time there were something like ninety-five

STATE MANAGER M. L. STEWART  
Who Came 1000 Miles to Attend Last Night's Meeting

new members who took the obligations and were made full-fledged members of this prosperous organization.

The members of the Mesa lodge had succeeded in getting the largest number of new members and consequently won the cash prize of \$75 which had been offered to the camp getting the biggest class for initiation.

One of the most enjoyable features of the evening was the competitive drill given by picked teams from the Phoenix and the Glendale lodges, a cash prize of fifty dollars being the incentive for which the rival teams were competing. According to the decision of the judges, the Glendale boys put up the best exhibition of drilling and were glorified by having the handsome prize bestowed on them for their efforts.

There were about three hundred Woodmen present.

### ASSISTS GENERAL DIAZ

[Republican A. P. Leased Wire]  
GUATEMALA, April 15.—President Estrada Cabrera of Guatemala denies reports that he has assisted General Felix Diaz with money and arms. He said that the reports of mobilizations on Guatemalan territory were false. The president declared he had always been careful to maintain neutrality, particularly during the present conditions in Mexico. His greatest ambition, he said, was for peace and its consequent prosperity.

No Tires are "larger,"—  
taken Type for Type,—than  
—GOODRICH Black-Treads

SIZE for Size, and Type for Type, Goodrich Tires are as large as the largest put out by any Maker, and WILL BE SO MAINTAINED.

This means larger than corresponding Sizes and Types of many other Tires for which even higher prices are asked.

It means, too, the most generously made FABRIC Tires on the Market, at any price.

Manufactured by the largest Rubber Factory in America, with a 47 year Experience in Rubber-working, and a Record for DEPENDABILITY which makes the above statements worthy of prompt acceptance.

Made from the new "Barefoot Rubber," which gives its maximum traction with minimum Friction,—with resilience, liveliness and long-life to Tires.

PRICED on that "Fair-List" basis initiated Jan. 1st, 1915, by the B. F. Goodrich Co., which saved more than \$25,000,000 last year to Tire-Users, through its propaganda against Padded Price-Lists.

Priced so reasonably low that Competitors, whose products are not comparable, claim superiority on the mere strength of their Higher Prices (and the Larger Profits they demand from the Tire-User and Dealer).

Goodrich Prices are based on what it costs the largest, and longest experienced, Rubber Factory to manufacture Tires, as ONE of the 269 lines of Goodrich Rubber Goods for which it buys Crude Rubber, and over which its Overhead Expenses are divided.

Good Business Men should know, from this, why Goodrich "Barefoot" Tires can be (as they are) the best Tires on the Market AT ANY PRICE, —though quoted at the moderate "Fair-List" figures frankly and openly published herewith.

DOES PROHIBITION PROHIBIT? THEY DOUBT IT IN BIRMINGHAM!

A photograph of the "Thirst Line" outside the express office at Birmingham, Ala., seems to answer the question: "Does the Alabama brand of prohibition prohibit?" The people in the line are waiting for their consignments of various sorts of booze. No liquor advertisements are permitted to appear in any Alabama papers so "publicity" cannot be gained for it. The State law against liquor advertising is now being tested. While it is evident that prohibition is not prohibiting in Birmingham, says the New York World, there is no question as to the city's loss in revenue. "This city of 150,000 people," says the Survey, "has discontinued its street sprinkling and garbage collection. It has dispensed with its health officer, city physician and milk inspector, extinguished half the city lights, cut the school session from nine to seven months and reduced by 10 per cent all teachers' salaries over \$75 a month. It has withdrawn all appropriation to its library. It has dismissed a third of its police force and put the remainder on a twelve-hour shift. It has closed several recreation department, with playgrounds and indoor gymnasium. Twenty thousand dollars has been withdrawn from institutional charities. The anti-tuberculosis campaign will suffer a reduction of \$3,800. Altogether, the cuts total \$340,000. It costs Birmingham \$1,238,629 a year to operate and only \$896,550 is available for the coming twelve months." And still the thirst of Birmingham get their liquor.
